

Supervision Service

A formal process of professional support, reflection and learning for clinical practitioners.

Supervision is essential to behavioral health providers in sustaining good practice throughout their careers. It offers practitioners ongoing opportunities to enhance their practice so they can operate effectively, safely and ethically.

This service is designed to benefit:

- LG Licensees
- Intern Therapists
- Clinicians Desiring
- Competency Training
- Clinicians on probation
- Clinicians seeking support

Focused Solutions' offers different models of supervision, including:

- Developmental
- Integrative
- Process Models
- Competency-based
- Social Role
- Function
- Psychotherapy-based

All supervision is conducted by the highest-level licensed providers in the corresponding state and meet the criteria to be Approved Clinical Supervisors.
